Relax and clear  
your mind.

# Round SPA swimming pools

 ISO 9001 CERTIFIED

We offer round pools in different sizes and two basic versions. Recessed into the ground or free-standing with the possibility of lining with wood in the colour of the customer's choice. For both versions, systems for cleaning, treatment and water heating are available in different capacities.

Diameter	Height	Wall thickness
2m	1m	6mm
2.5m	1.3-1.5 m	6mm
3m	1.3-1.5 m	6mm
3.5m	1.5m	6mm

(outdoor dimensions)

# Multifunction automatic water cleaning system - MF3000

The complete swimming pool control system which we are providing is the universal solution for cleaning SPA water. We are offering this device in various performance variants according to the customer's request.

## The key features:

- automatic water disinfection and Ph treatment system
- ready for solar pool water heating
- no construction work is required
- sand filtration with a filtration capacity of 50m<sup>3</sup> and a 2-year warranty
- possibility of lining with wood according to individual requirements
- also available with a water heating system

# Water heating system - Mr. Silent

## Low cost and consumption

Pool heat pumps with an inverter are used to maintain a constant water temperature. You can enjoy swimming not only in summer but also in spring and autumn. The pump can be also operated in the winter and will help you to achieve significant savings - it obtains extra energy from the ambient air, which is then converted into heat to heat the water in the pool (down to -10 °C).

This type of water heating system is revolutionary pool heat pump that can be used for both in summer and in winter. It is extremely quiet, economical variant made from environmentally friendly materials. The system can be controlled even remotely with mobile phone.

### The key features:

- the noise level is as low as a refrigerator, it is up to 11x quieter than competitors' heat pumps
- significant energy savings in comparison with conventional pumps (in the first days it runs at 100% and after reaching the required temperature, the consumption is reduced to about 50%)
- Mr. Silence pumps has a much lower value of global warming potential (GWP) - only 32%

# Round swimming pool in wood design version

---

The round swimming pool in wood design is ideal for an outdoor solution suitable for private relaxation in the garden. It is supplied with our MF3000 system and water circulation system. The color and type of wood are used individually according to the customer's wishes.

## The key features:

- no construction work is required
- luxury wood design with different colors and wood styles
- suitable for long-term outdoor use
- also an available variant with a water heating system and water level control system
- selectable number of jets
- the pool can be equipped with a bench on the inner perimeter

# Luxury swimming pools with overflow

The swimming pool with an overflow rim is a very frequent choice for the yard. We are provided high-quality products with exclusive designs in many different variants, the roofing option is also available. This version is equipped with an automatic water level control system and, like the previous versions, it can be also equipped with a solar water heating system or heat pump.

Dimensions	Height	Wall thickness
3.1 x 6.1 m	1.5 m	6 - 8mm
3.5 x 6.5 m	1.5 m	6 - 8mm
3.5 x 7 m	1.5 m	6 - 8mm
3.5 x 8.2m	1.5 m	6 - 8mm
